

Flu Shot Requirement

The State of Connecticut has made it Mandatory that all children enrolled in daycare, to age 4 years, 11 months, MUST receive the flu vaccine between September 1, 2021 and December 31, 2021.

Failure to have your child immunized for the flu during the time allowed, or failure to bring in a letter from your doctor if your child can't get it for medical reasons, will result in the exclusion from daycare for the entire length of the flu season (January 1st until March 31st).

Please return this letter completely filled out so that the state can track your compliance with their regulations.

Flu shot Administration Confirmation

Child's name: _____

D.O.B. _____

Date vaccine administered _____

Signature of person administering vaccine _____

Printed name/title _____

Address where vaccine was administered _____

Please submit a letter or exemption on your child's Pediatrician's letterhead explaining the conditions of your child's exclusion from the flu vaccine requirement.
